Master's Degree – Ingegneria Gestionale
Università degli Studi di Roma
110/110

Bachelor's Degree – Ingegneria Industriale
Università degli Studi di Cassino
109/110

LANGUAGES

Italiano – native

English – professional

Edoardo Di Vona

SAP OTC SPECIALIST

SAP S/4HANA • Order-to-Cash • Global Rollouts • Integrations & Data Migration

PROFILE

SAP Consultant specialized in the **Order-to-Cash (SD)** area with solid experience in **logistics** and international **S/4HANA rollouts**. I combine functional expertise with hands-on **ABAP** development and strong integration skills — REST interfaces with carriers and IDoc flows with 3PL providers, orchestrated through **SAP PO** — enabling me to follow projects end-to-end, from requirements analysis to go-live and support. A dedicated team player, I collaborate effectively with colleagues and stakeholders to achieve shared objectives and drive project success.

PROFESSIONAL EXPERIENCE

SAP OTC Specialist · **Technogym S.p.A.** 03/2025 – Present

- Lead **SAP S/4HANA rollouts** for international subsidiaries, ensuring a seamless and standardized implementation across the organization.
- Followed an **SAP S/4HANA upgrade** project end-to-end, ensuring business process continuity across the OTC area.
- Manage end-to-end **Order-to-Cash (OTC)** processes and procurement streams.
- Perform **GAP analysis** with corresponding customizing and ABAP implementations.
- Handle **data migration** activities, including open Purchase Orders (PO) and Sales Orders (SO).
- Oversee system migrations and integrations: **carriers via REST interfaces** and **3PL providers via IDoc**, with **SAP PO** as orchestrator.
- Leverage **user exits, BADIs, BAPIs and Function Modules** within S/4HANA environments.
- Develop in **ABAP** for enhancements, data conversions and process automation.
- Provide daily support with strong **debugging** skills and a proactive approach to issue resolution.

SAP SD Consultant · **Avvale** 02/2022 – 03/2025

- **Requirements analysis:** gathered business needs, analyzed processes and proposed solutions.
- **Greenfield implementation:** followed a greenfield SAP project covering the MM/QM area.
- **Configuration & customizing:** tailored SD/MM settings, pricing and procedures.
- **System integration:** designed and maintained interfaces with 3PL systems.
- **Sales & pricing order fulfillment:** streamlined flows and resolved order issues.
- **User training & support:** educated key users and provided ongoing assistance.
- **Project management:** planned and coordinated testing phases.

KEY PROJECTS

- Successfully managed the **SAP rollout** for the US and South African branches of a leading Italian wellness company, with focus on the logistics area.
- **Post go-live support:** problem-solving, query resolution, troubleshooting, root-cause analysis and corrective actions.
- **Evolutive projects** focused on continuous improvement and process optimization within the system.

LOOKING FOR

- Challenging projects and assignments that allow me to broaden my skillset and contribute to the success of the organization.
